† Sum of all reported data

Note:

- Race estimates of individuals in families with children are based on the race of the householder.
- Youth counts from the ACS data are rollups of race estimates of the number of households with householders under 25 years old, a proxy for unaccompanied youth. Youth counts from the PIT data are estimates of the number of unaccompanied youth and parenting persons under 25 years old.
- CoC's that are missing demographic data, such as age or race, for a portion of the households in their PIT Count are required by HUD to extrapolate to account for and report on their demographic characteristics.
